WHY TEMMODAL?

TEMMODAL IS YOUR FLEXIBLE PARTNER

We help you to optimize your fleet

Our twenty years experiences in the industrial fields allow us to think the best option to serve our customers

TEMMODAL is constantly maintaining a good stock level to quickly answer the market demand

Upon request, IBCs are fitted with IoT:

- Geolocation tracking system / Filling-Temperature-Pressure sensors

We offer frame contract on long term vision, the guarantee to have your IBC delivered every year before the start of the pick season

DO YOU WANT TO PURCHASE ?

TEMMODAL WILL SUPPORT YOUR TEAM TO SELECT THE RIGHT CONTAINERS THAT FIT YOUR NEEDS

- Understanding of your needs, as well as your technical requirements (type of utilisation, product, etc.)
- Commercial & technical offer
- Further to customer approval- issue Purchase order
- Order Confirmation by TEMMODAL
- Lead time to produce containers
- FAT « Factory Acceptance Test » (at manufacturing site, or online)
- Delivery of the containers at your premises
- After sales services: Maintenance follow up, regulatory inspections, modifications (services contract)

DO YOU WANT TO RENT ?

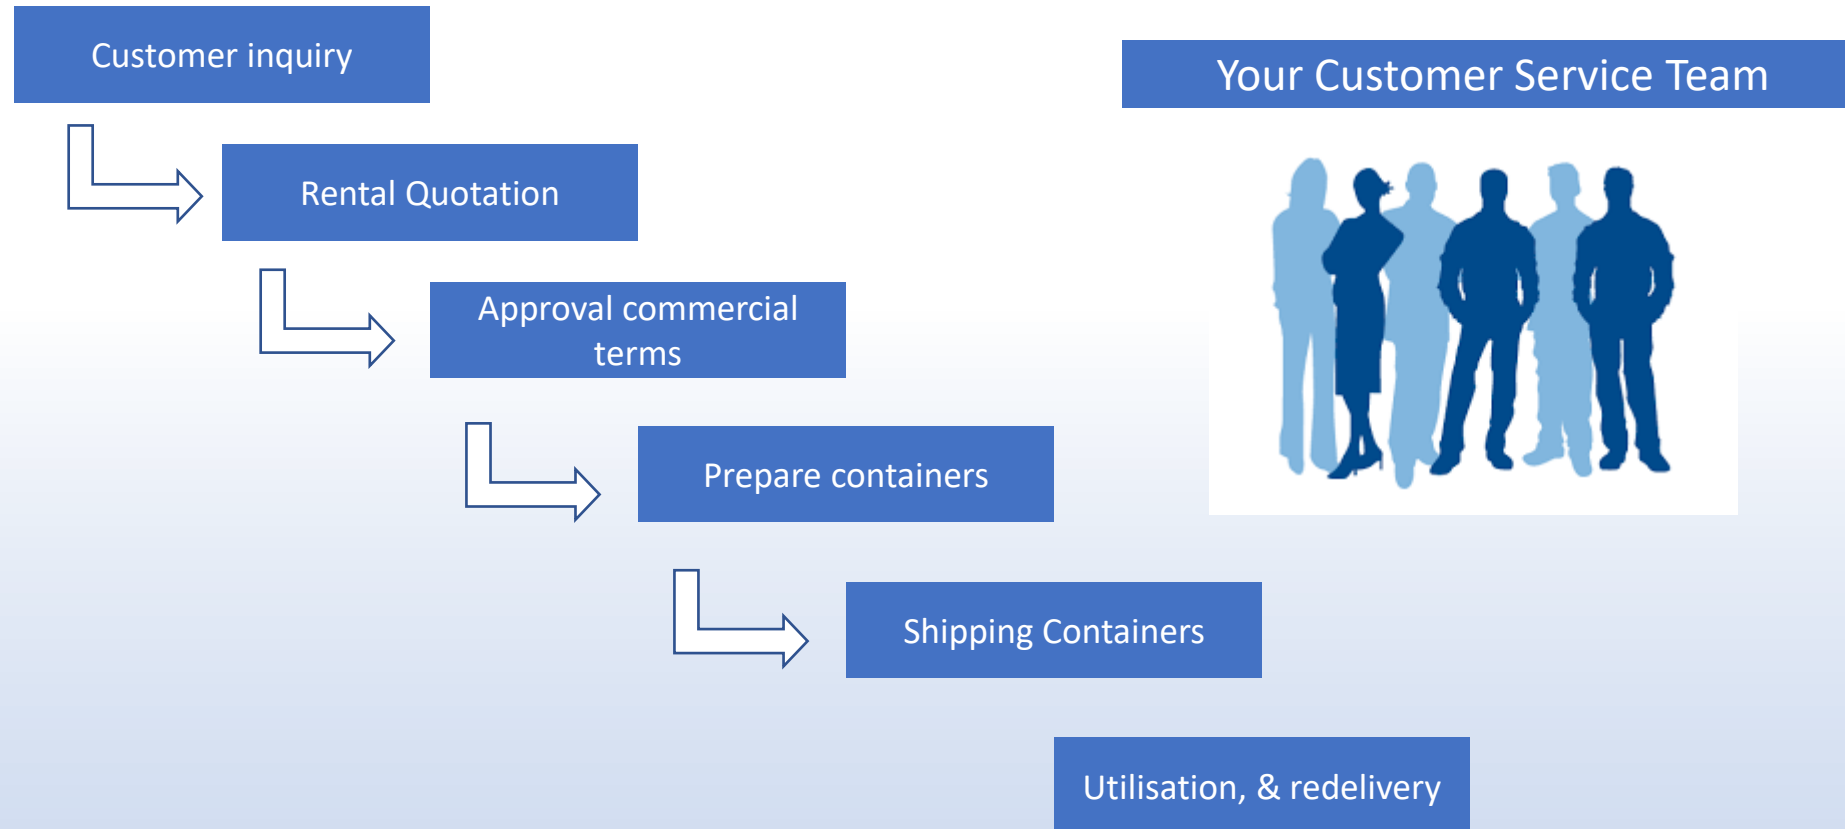

TEMMODAL IS YOUR FLEXIBLE PARTNER

- Rental agreement with **TEMMODAL** from mid term (2 years) to long term
- Containers are prepared at our premises in Europe
- Loading / Bottom discharge part can be adjusted to your connections
- For long term contract, Containers can be labelled (sticker with your brand name)
- You pick up the IBC at our “one stop shop” warehouses, or TEMMODAL arrange the transportation to your plant
- Our IBC are all identified with a serial number (manufacturer plate)
- Cleaning, Maintenance & Repair, as well as Return logistics can be ensured by TEMMODAL upon request (unique fee/containers, or at cost), just ask your dedicated sales representative.

RENTING OFFER – HOW DOES IT WORK?

Short operational process

WHAT ARE THE LEASING BENEFITS?

FINANCIAL (FLEXIBILITY) BENEFIT FOR CUSTOMER

- **Balanced Cash Outflow** - Other than a onetime capital expenditure a leasing offers a steady cash outflow over the agreement duration.
- **Tax Benefit** - Leasing expense or lease payments are currently considered as operating expenses, and therefore tax deductible (changes in the law are ongoing)
- **No Capital Expenditure** - Most companies do not require a Capex approval for leasing activities and therefore allows to «make» the investment
- **Preserve Credit Lines** - The financial flexibility of renting equipment enables your company to reserve valuable lines of credit for other growth opportunities.

WHAT ARE THE LEASING BENEFITS?

TECHNICAL/ EXPERTISE

- **Technical expertise** - TEMMODAL can offer expertise in containers solutions and high quality services
- **Complying with the market requirements** - Leasing company owns assets and maintains a high level of standard IBCs. We offer value added services with lease such as:
 - ✓ Repair, Maintenance, refurbishment
 - ✓ Technical advisory
 - ✓ Cleaning, Transportation, delivering of spare parts can be provided
- **State-of-the-Art Equipment** - Renting allows the customer having the latest equipment and technologies available

WHAT ARE THE LEASING BENEFITS?

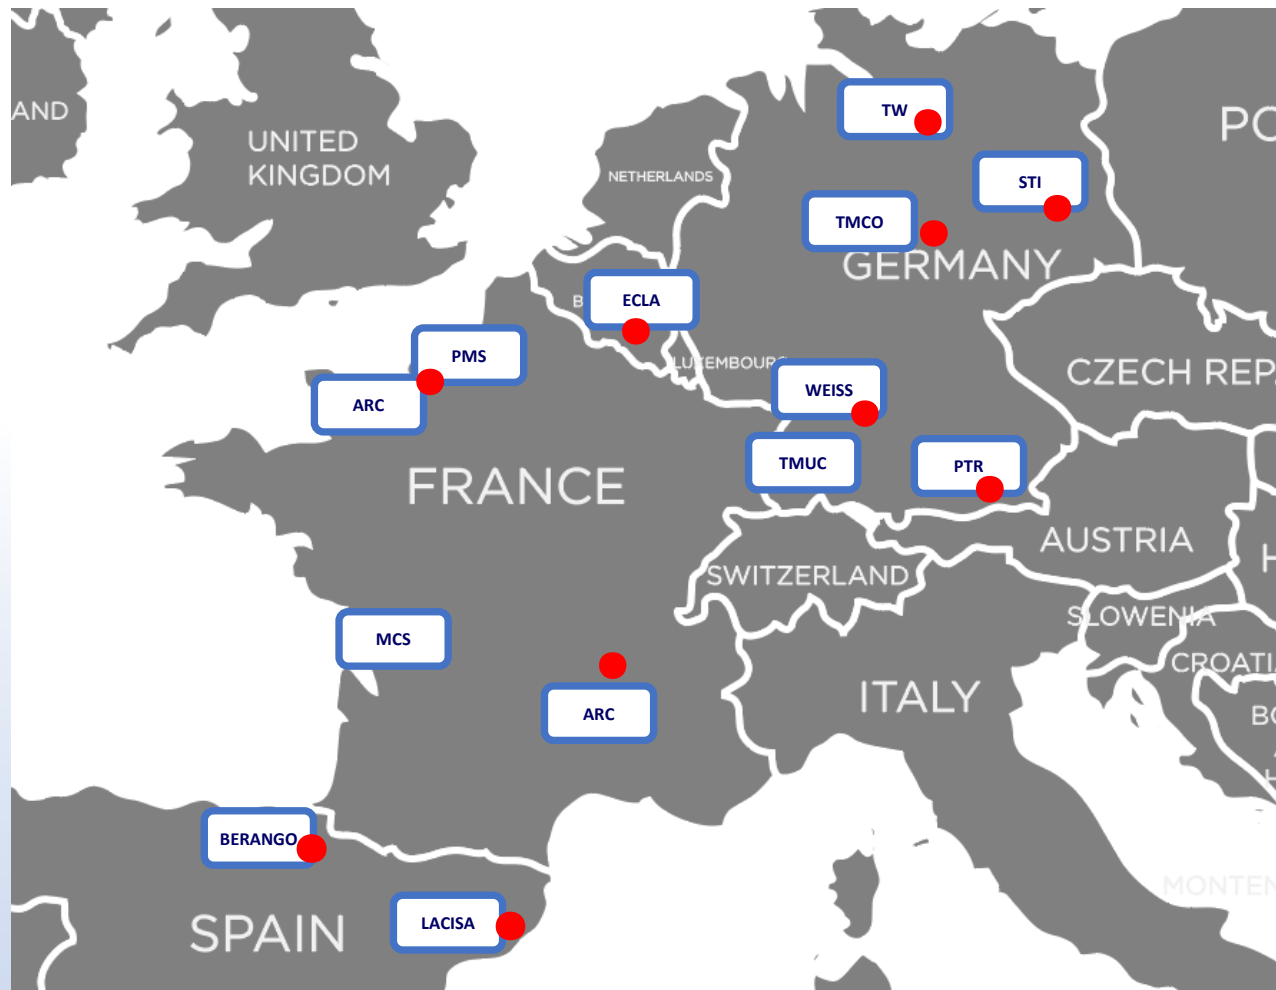

OPERATIONS OPTIMIZATION

- **Availability** - Customer will benefit of our stock availability, and have containers delivered in very short notice.
- **Seasonality** - Rental solutions help to face seasonal pick or fluctuation in customers production, or customers demand
- **Reduction of business risk** - Customers can rent/lease Containers when needed and where needed. The commitment in terms of duration is limited to the contract term depending on your real need
- **Variation** - Customers can find the right container for the right product, without changing their fleet.
- **Cost optimization** - Maintenance costs can be reduced, as customers can benefit from TMM depot network
